SQL ASSIGNMENT

RSVP MOVIES SUMMERY

RSVP movies is an Indian film production company that has produced many super hit movies. As a data analyst and SQL expert, I used SQL to analyse the given data and give recommendations to RSVP movies based on my insights.

About Movies:

- The data which is given to me to analyse contains movie table which is most important data, but some of the values given in the table is NULL.
- The highest number of movies were released in the year of 2017 in the month of march.
- USA and India produced more than a thousand movies in the year 2019.
- The movies that belong to the data has 13 genre in total.
- Drama movies are highest among all of the genres.
- Thriller movies are the top 3 among all of the genres.
- The rating system of movie genre starts from1 to 10 with highest of movies having a median rating of 7.
- In March 2017, total of 24 Drama movies were released and had more then 1000 votes.

Recommendations:

- Plan for releasing the movies in March as to capitalize on peak production trends.
- Produce thriller and Drama movie genre more as they have more popularity among the viewers.
- As Dream Warrior Pictures and National theatre live production produces the greatest number of hit movies, try to opt for their strategies.
- Top 3 actresses based on number of super hit movies are Parthy Thiruvothu,Susan Brown and Amanda Lawrence , try to caste them or look after the views of people regarding them to analyse the trends and viewers demand.
